

L-868 Class 1B Light Base

Compliance and Applications

Certified to FAA AC 150/5345-42 (Current Revision)
 L-868 Class 1B; Size: A=8", Size: B=12", Size: C=15"

Our FAA approved, load bearing light bases are designed for locations which experience aircraft and other heavy vehicular loading. The base typically supports an in-pavement light fixture and houses a powering isolation transformer. It can also be used solely as a junction box or transformer housing.

Specifications

- Material:
 - SS: All stainless steel construction (12 GA min, 304/18-8)
 - SB: Steel base (.109" min) with VEGA-KOTE coating and stainless steel top ring
- Mounting holes:
 - Size: A: (4) 3/8-16 holes at 60°, 120°, 240°, 300°
 - Size: B, C: (12) 3/8"-16 equally spaced, tapped holes are located over conduit openings
- (6) 3/8-16 x 1" stainless hex head cap screws
- Conduit openings are:
 - 2.5" up from bottom
 - Various sizes and locations are available
 - Protective plug installed in threaded hubs
 - Flex Connex Grommets are shipped separately
- Internal/External ground straps are standard
- Diameter: A=8" (7.25" BC), B=12" (11.25" BC), C=15" (14.25" BC)
- Height: 24"
- 3/4" plywood cover
