

#6 AWG Solid Bare Copper Wire

Applications

Used for grounding electrical systems where high electrical conductivity is required.

Features

- #6 AWG solid bare copper wire
- Cross-sectional area: 26,240 circular mils
- Outside diameter: 0.162" (4.11 mm)
- Weight: 79.5 lb per 1,000 ft
- Conforms to ASTM B3
- Manufactured in the USA; Buy America compliant
